Description

The Press and Dryer from SNF FLOQUIP is a laboratory machine capable of pressing and drying sheets of paper similar to industrial press and dryers. It's the ultimate laboratory equipment designed to go with the FLOQUIP Dynamic Handsheet Former, made to produce oriented handsheet paper for mechanical and print testing.

The Press and Dryer is able to press and dry handsheets up to 250 mm wide and 1000 mm long with a grammage up to 350 g/m². It is also capable to press and dry multi-layered handsheets.

SNF FLOQUIP

PRESS

- 2 rollers covered with white rubber, length 400 mm 80 shores.
- Pressing by jacks 0-10 bars and crushing up to 500 kg
- Roller speed : 15 rpm
- Asynchronous motor single phase current 110V - 16 A

DRYER

- 780 mm ray
- temperature range : 0-200°C with a control of 0.5°C
- Handsheet pressing by natural felt 4 mm thick up to 180 kg/m²
